HYBRID LED LIGHT TOWER

SOLAR & GAS-POWERED

OPTRAFFIC's **Hybrid LED Light Tower Trailers** feature cutting-edge LED technology and utilizes an internal hybrid system, harnessing both solar/battery energy and an eco-friendly gasoline powered (85 octane) charging system. These towers serve various purposes for applications such as special events, work zones, bridge repairs, and temporary security for police/military operations.

CONFIGURATION

- Heavy-duty couplings can be towed by most vehicles
- Maintenance-free AGM batteries
- Electric winch lifting system allows one person to raise and lower the panel with ease
- Hot-galvanized steel structure, anti-corrosion lasting for 20+ years
- 110,000 Lumens
- High intensity LED technology (4 x 200W lamps)
- 4 x 455W Solar Panels
- Telescoping mast max height: 28 ft
- Adjustable illumination heights

SKU: 33113307

SPECIFICATIONS

- Environmentally friendly, highly efficient power system
- Operational without backup for 36+ hours
- Auto-charger shuts down when batteries are fully charged, thus preventing excess damage
- AC-240V external battery charger for manual charging
- Safety lock: wheel, battery box and control box

WARRANTY & MAINTENANCE

- 2 year warranty on electronics
- 1 year warranty on trailer chassis
- Technical support available
